Technologies

HTML & CSS	Materialize & Bootstrap
Javascript	jQuery
AngularJS	Ionic Framework
Python	Git & Github
SQLight	Firebase
Django	Browserify
Grunt	Angular 4
Adobe Illustrator	Adobe InDesign
C#	.Net

Projects

TressTracker
AngularJS with Firebase

TressTracker is a SPA geared toward women experiencing hair loss who wear wigs. A database of 600+ medical grade wigs was created on Firebase. Users interact with an AngularJS front end that allows them to create accounts and query, save, or make notes on wigs they own.
